

Tax Provision

Simple, intuitive tax provision software to speed up your financial close.

Close faster, file earlier.

In today's global tax environment, management and regulatory pressure require companies to produce an accurate and defensible tax provision calculation within an ever-shrinking financial close window. Given this, it's more important than ever for tax departments to use trusted software to help with the crucial task of provisioning.

Thomson Reuters **ONESOURCE™ Tax Provision** is a simple and intuitive application that speeds up the financial close. This market-leading, patented application allows users to process accurate estimates, drill down from consolidated amounts to the lowest level in two clicks and easily transition data to other applications—all within seconds.

The outcome: accomplishing direct tax obligations more quickly and confidently than ever before and with minimal adoption time. This application, trusted by more companies and firms than any other application, allows you to focus on transforming financial data into usable intelligence with unmatched speed and efficiency.

“

ONESOURCE Tax Provision has helped us to **improve the efficiency of our staff** because we are able to deliver quality deliverables as well as strengthen our internal controls and bring more cohesiveness between tax accounting and compliance.

Calculation Engine

UTILISE our market-leading, patented calculation engine to generate a complete tax entry with a structured user workflow and a formal review and approval process.

- ✓ Flexible data dimensions to store and perform calculations
- ✓ Automatable tax attributes such as net operating losses and valuation allowances
- ✓ Drill down from consolidated amounts to the supporting detail in just two clicks
- ✓ Entity relationships to mirror pass-through corporate structures
- ✓ Complete interim reporting capabilities for monthly and quarterly provisions
- ✓ Integrated with ONESOURCE compliance and other direct tax applications

“

We were unable to automate about 85 percent of adjustments within one of our main tax return schedules, so I would say that **I've cut down the time** I've spent in the initial steps of preparing the tax provision by 40 or 50 percent.
