WHY USE THOMSON REUTER'S FINANCIAL REPORTING TOOL?

EFFICIENCY

Accounting Standards Disclosure Updates – New and updated disclosures can be quickly applied to your reports, so that you can be confident that your disclosures are based on the latest updates.

Capture Data Once – Capture and store your data in one location to stop re-keying errors. Changes need only be made once to be reflected throughout your reports.

Automation – Save time and increase accuracy when preparing your reports with automatic rounding, note/page numbering, referencing, and a roll-forward process. You will also be able to generate supporting workpapers that link your source data to your report.

CONTROL

Complete Audit Trail – Standard workpapers help substantiate your reports by providing a full audit trail from your trial balance, including adjustments, to your reports.

Big 4 Content – Benefit from the quality and integrity of best practice content provided by the Big 4 accounting firm. Regular content releases are provided to assist you to comply with updates to accounting standards.

Maintain Corporate Standards – Maintain the accuracy, quality, and consistency of your corporate reports by controlling the updates to common notes and disclosures across your group.

FLEXIBILITY

Flexible Disclosures – Insert and customise new disclosures in your reports using our standard templates, or create and control your own specific disclosures.

Smart Table Editor – Our smart table editor provides a user-friendly, intuitive way to tailor your tables, accommodating your own preferred presentation style.

Create Formulas and Variables – Create and control your own formulas and variables to link and reference data throughout your reports.

QUICKLY LINK THROUGH TO CAPTURED SOURCE DATA WITHIN REPORTS BY USING OUR INTUITIVE EXPRESSION BUILDER

Review of operations
