Thomson Reuters Regulatory Intelligence

Navigate the regulatory environment with confidence

the answer company™
THOMSON REUTERS®

Complexities and challenges of the regulatory environment

As the world's leading source of intelligent information for businesses and professionals, we intrinsically understand the complexities and challenges you face within the regulatory environment:

- Constantly shifting expectations of regulatory bodies
- Rapidly increasing number of regulatory developments
- Rising costs of compliance

With over 56,000 regulatory alerts in 2017

A typical financial services organization deals with an average of 211 – at times conflicting – regulatory developments on a daily basis. Each carries potential risk and can leave your organization vulnerable if the risk is not properly managed and mitigated. The consequences of noncompliance, which include personal liability, significant fines and reputational damage to the organization, are more severe than ever before.

According to the results of Thomson Reuters 2017 Cost of Compliance Survey, over a quarter (26 percent) of organizations spend at least a day per week tracking and analyzing regulatory change developments, while balancing other compliance tasks such as interaction with regulators, regulatory reporting, compliance monitoring, compliance training and leading on implementing cultural change.

Additionally, efforts to comply can no longer be reactive; compliance professionals have to be proactive and anticipate the developments that lie ahead. You need to take swift action to assess the impact of regulatory change on your organization, report to the board and put appropriate plans in place.

All this means that you face a rapidly changing and overwhelmingly complex regulatory environment, a landscape which is set to endure into the future.

Introducing Thomson Reuters Regulatory Intelligence

Thomson Reuters Regulatory Intelligence is a single solution that empowers you to make well-informed decisions to confidently manage regulatory risk, while providing the tools to make proactive decisions and action change within your organization. It has been developed with a full understanding of your compliance needs – locally and globally, today and in the future.

Thomson Reuters Regulatory Intelligence combines world-class content with advanced technology to deliver a unique one-stop regulatory intelligence solution.

Access information from anywhere

Concise information for a focused view

Content within Thomson Reuters Regulatory Intelligence has been configured to ensure you can easily find the information required to get clarity on what is most important to your organization. This simplifies the research process so you don't have to spend time sifting through vast amounts of irrelevant information.

All content within Thomson Reuters Regulatory Intelligence can be filtered using the following five parameters, enabling you to set up time-saving customized updates, alerts and calendars:

Geography	Sector	Content Type	Organizations	Themes
Europe	Banking	Legislative Materials	Central Banks	Entity Establishment & Governance
Africa	Insurance	Executive Materials	Courts & Tribunals	Internal Oversight
Asia	Securities & Commodities	Regulatory Materials	Government Departments & Ministries	Business Activities
North America	Healthcare (U.S. only)	Editorial Summaries & Analysis	International & Regional Bodies	Business Conduct Standards
Australia & Oceania		Secondary Sources	Legislative Bodies	Regulatory Structure & Oversight
Middle East			Publishers	
Latin America & Caribbean			Regulators	
			SROs, Exchanges, ATSS & Clearing Agencies	
			Trade Associations	

Each parameter can be filtered even further by up to two sublevels to give you as much granularity as you need.

Expert, trusted knowledge

The expertise and knowledge of our regulatory intelligence experts and editorial team are second to none. Their expertise means that as well as having access to the latest regulatory developments, you are able to understand the actual impact of these developments on your organization.

Our dedicated in-house editorial and regulatory intelligence team is further deepened by worldwide Reuters news coverage and supported by a network of third-party experts around the world.

*Together, our regulatory specialists provide independent, practical analysis and thought leadership. The team includes both regulators and the regulated with experienced former regulators and compliance officers who **understand the spirit as well as the detail of the rules**. They have held positions as enforcement lawyers, supervisors, investigators, risk managers, policymakers as well as internal auditors. The experience also covers acting as special advisers to regulators and the authorization to conduct third-party reviews as consultants.*

*Thomson Reuters Regulatory Intelligence content includes in-depth, practical analysis setting out **key issues that you need to know and the steps you need to take**, through to investigative and comparative analysis of complex developments and regulatory requirements. You have easy access to quick guides, briefings, special reports and video updates. Analysis is driven by regulatory events; developments and legislative change, including key deadlines and industry hot topics and based on source regulatory publications and court records.*

*Our journalists have deep industry specific knowledge and extensive networks to draw on to capture the latest regulatory news, opinion and emerging issues. They report directly from key conferences, events and the centers of policy making, to share emerging developments, industry thinking and experiences, and are often **first to report on breaking news** that you need to know.*

*The team provides global coverage of developments with experts and journalists located in key financial centers providing the **latest updates across all time zones**. Our extensive oversight and day-to-day tracking of more than 900 regulatory bodies enables our experienced experts and journalists to identify emerging themes and diverging regulatory practices while sharing best practices and challenges for firms worldwide.*

Editor-in-Chief

An aerial night photograph of a major city highway interchange, likely in Hong Kong. The multi-level roads are filled with cars, their headlights and taillights creating a vibrant flow of light. In the background, several tall skyscrapers are illuminated, with some featuring distinctive red light displays on their upper floors. The sky is a deep twilight blue.

"Our extensive oversight and day-to-day tracking of more than 900 regulatory bodies enables our experienced experts and journalists to identify emerging themes and diverging regulatory practices while sharing best practices and challenges for firms worldwide."
